

On July 1st 2014 the Parke County Assessor's Office began Cyclical Reassessment.

Cyclical Reassessment is where $\frac{1}{4}$ of the county's parcels are visited each year so that the total county has been reassessed in the four year period. We have a representative out in the field visiting each parcel.

If you have any questions or concerns regarding the visitation of your parcel please contact the Assessor's Office at 765-569-3490 and we will be happy to address any concerns that you may have.
